

Safety information

On the contamination of Compressors, Vacuum Pumps and Components

Scope of application and purpose

The enclosed declaration for repair of the compressors, vacuum pumps and components aims to inform the contractor about possible contamination.

Based on this information the contractor can take the necessary protections in the execution of the repair.

Note: The same regulations apply to repairs on site.

Preparing the shipment

Before dispatch of the aggregate the operator must fill out the following declaration completely and attach the shipping documents. The shipping instructions which are indicated in the respective operating instructions are to be observed, such as:

- Drain resources
- Remove filter inserts
- Seal all openings airtight
- packed appropriately
- Dispatch in suitable transport container
- Make sure that the declaration of contamination is visibly attached outside on the packaging

Declaration of Contamination of Compressors, Vacuum Pumps and Components

The repair and / or servicing of compressors, vacuum pumps and components will be carried out only if a correctly declaration has been submitted. Non-completion will result in delay. The manufacturer can refuse to accept any equipment without a declaration.

A separate declaration has to be completed for each single component.

This declaration may be completed and signed only by authorized and qualified staff.

Customer / Dep./ Institute		Reason for return:

Type of Oil:					
Additional parts:					
B. Condition of the aggregate (Machine or Component)					
	Yes	No	Contamination:	Yes	No
Has the equipment been used?	<input type="checkbox"/>	<input type="checkbox"/>	toxic	<input type="checkbox"/>	<input type="checkbox"/>
Drained (Product/service fluid)?	<input type="checkbox"/>	<input type="checkbox"/>	corrosive	<input type="checkbox"/>	<input type="checkbox"/>
All openings sealed airtight?	<input type="checkbox"/>	<input type="checkbox"/>	flammable	<input type="checkbox"/>	<input type="checkbox"/>
Purged?	<input type="checkbox"/>	<input type="checkbox"/>	explosive ²⁾	<input type="checkbox"/>	<input type="checkbox"/>
Cleaning agent:			radioactive ²⁾	<input type="checkbox"/>	<input type="checkbox"/>
Cleaning method:			microbiological ²⁾	<input type="checkbox"/>	<input type="checkbox"/>
			other harmful substances	<input type="checkbox"/>	<input type="checkbox"/>
C. Description on the contamination (Please fill in absolutely)					
1) What substances have come into contact with the equipment?					
Tradename and / or chemical term of service fluids and substances processed, properties of the substances According to safety data sheet (e.g. toxic, inflammable, corrosive, radioactive)					
	Tradename:	Chemical name:	Properties of the substances:		
a)					
b)					
c)					
d)					
				Yes	No
2) Are these substances harmful?				<input type="checkbox"/>	<input type="checkbox"/>
3) Dangerous decomposition products when heated?				<input type="checkbox"/>	<input type="checkbox"/>
If yes, which?					
²⁾ Components contaminated by microbiological, explosive or radioactive products/substances will not be accepted without written evidence of decontamination.					
D. Legally binding declaration:					
We affirm that the details in this declaration are true and complete and I as the undersigned am in a position to assess this. We are aware that we liable to the contractor for damages which occur due to incomplete and incorrect details. We undertake to exempt the contractor from compensation claims by third parties caused by incomplete and incorrect details. We are aware that we directly liable to third parties independent of this declaration – including in particular the employees of the contractor assigned with the handling/repair of the product.
